Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-5	YES
	Claims		NO
Inventive step (IS)	Claims	1-5	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-5	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

The technical problem of interest in the present application is that of increasing the safety of the method for producing aqueous solutions from free HA and, at the same time, increasing the yield of free HA.

None of the documents cited in the search report states or suggests that the use of a specific stripping medium in combination with a particular temperature control arrangement at the column intake would solve the aforementioned problem.

Claims 1-5 are therefore considered to be novel and inventive.
